

# How to receive TERGO token:

## NNS

1. Go to <https://nns.ic0.app/> and click the button "Sign in with Internet Identity" to sign in.

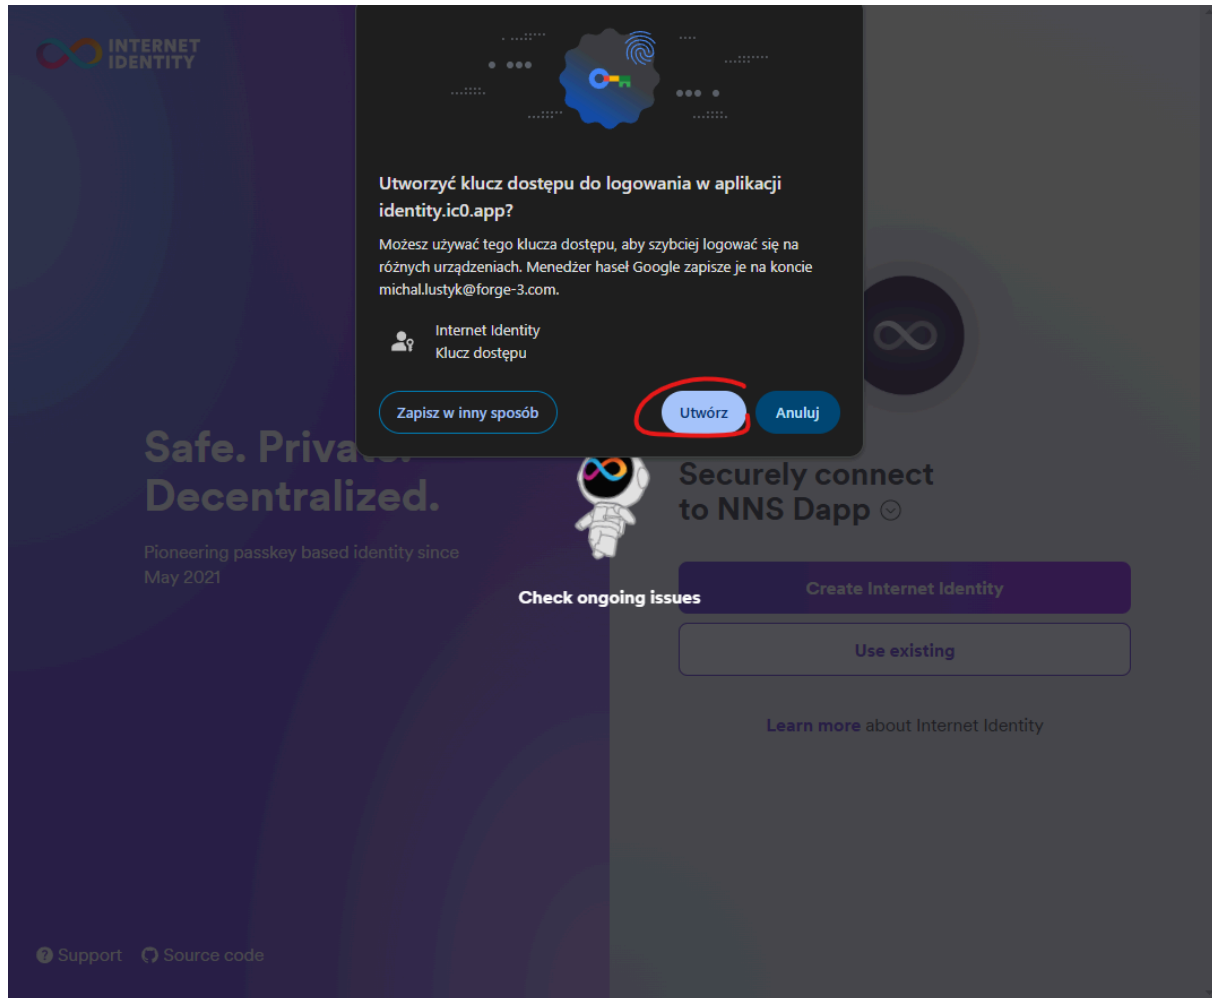

2.a. After a bow step you should be redirected to Internet Identity website (<https://identity.ic0.app/#authorize>). If you are on this website click “Create Internet Identity” (If you already have Internet Identity do to step 2.b)

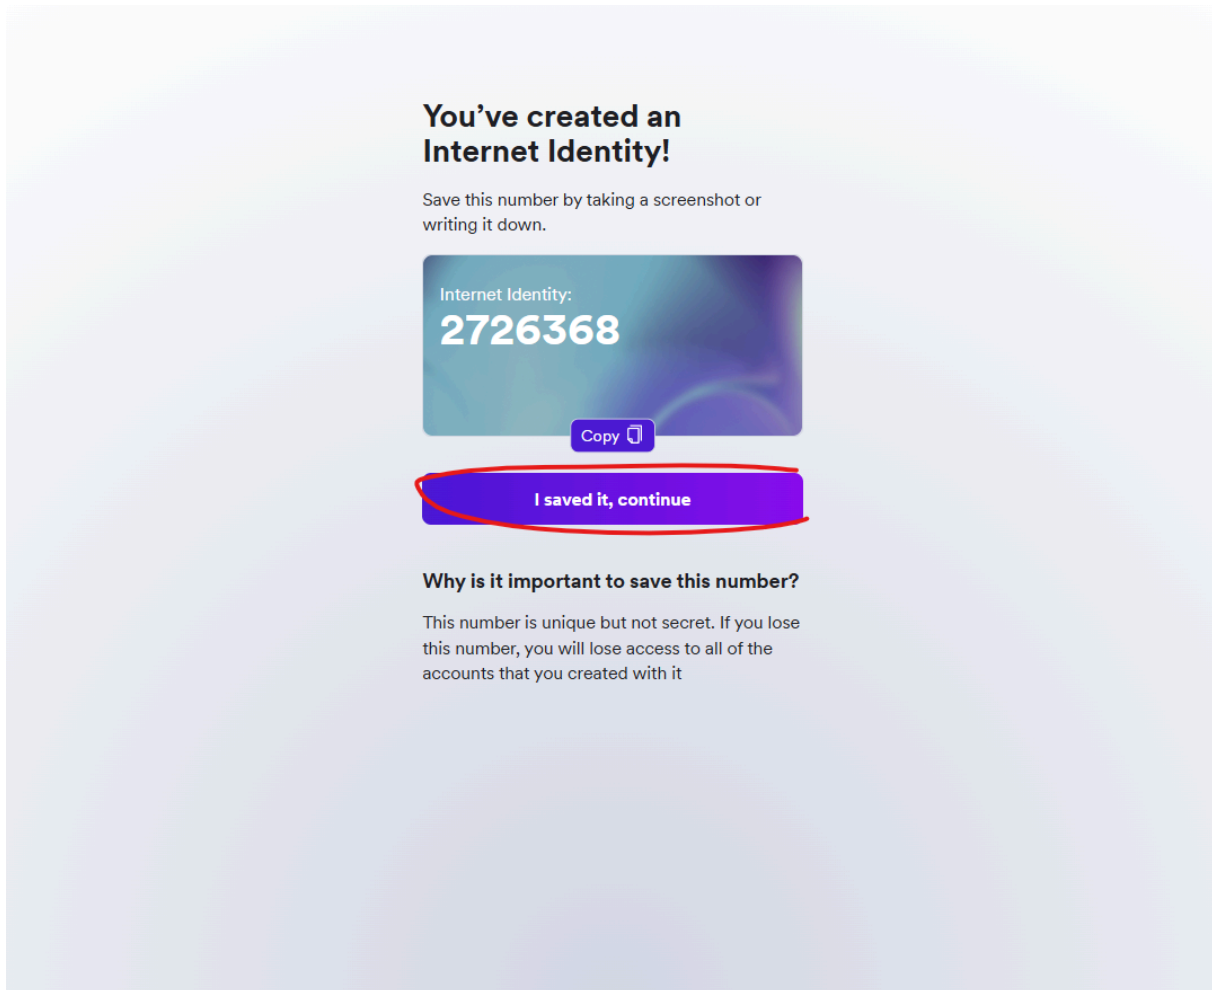

3.a. Clicking on this button will trigger generation of your local Internet Identity represented by a secret key that is securely stored on your device in encrypted form. Your crypto assets are as secure as your Internet Identity. Never reveal it to anyone.

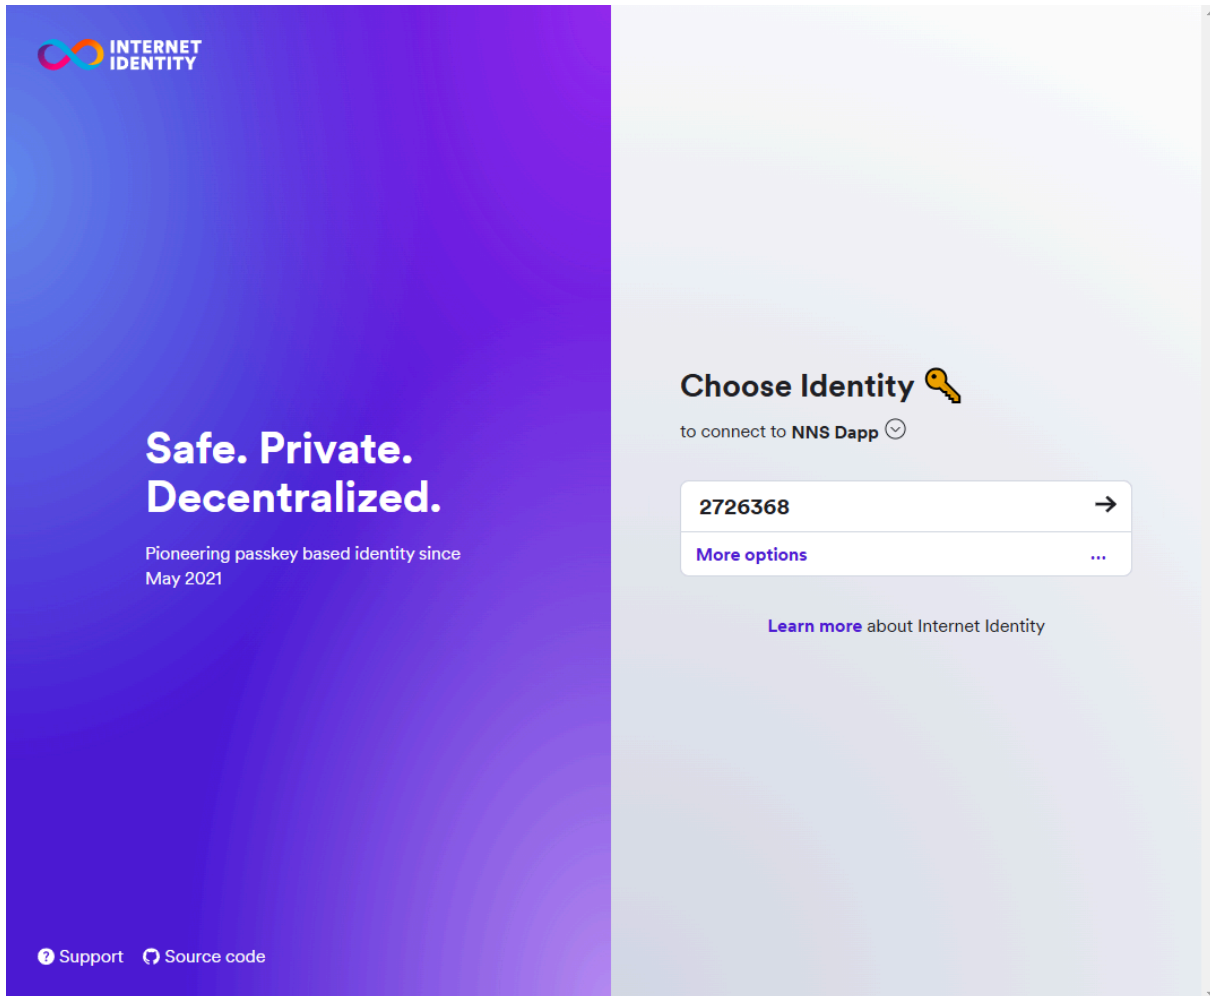

Click on this pop up to create your identity. After that you may be asked to set a pin that will let you use your identity when you need it.

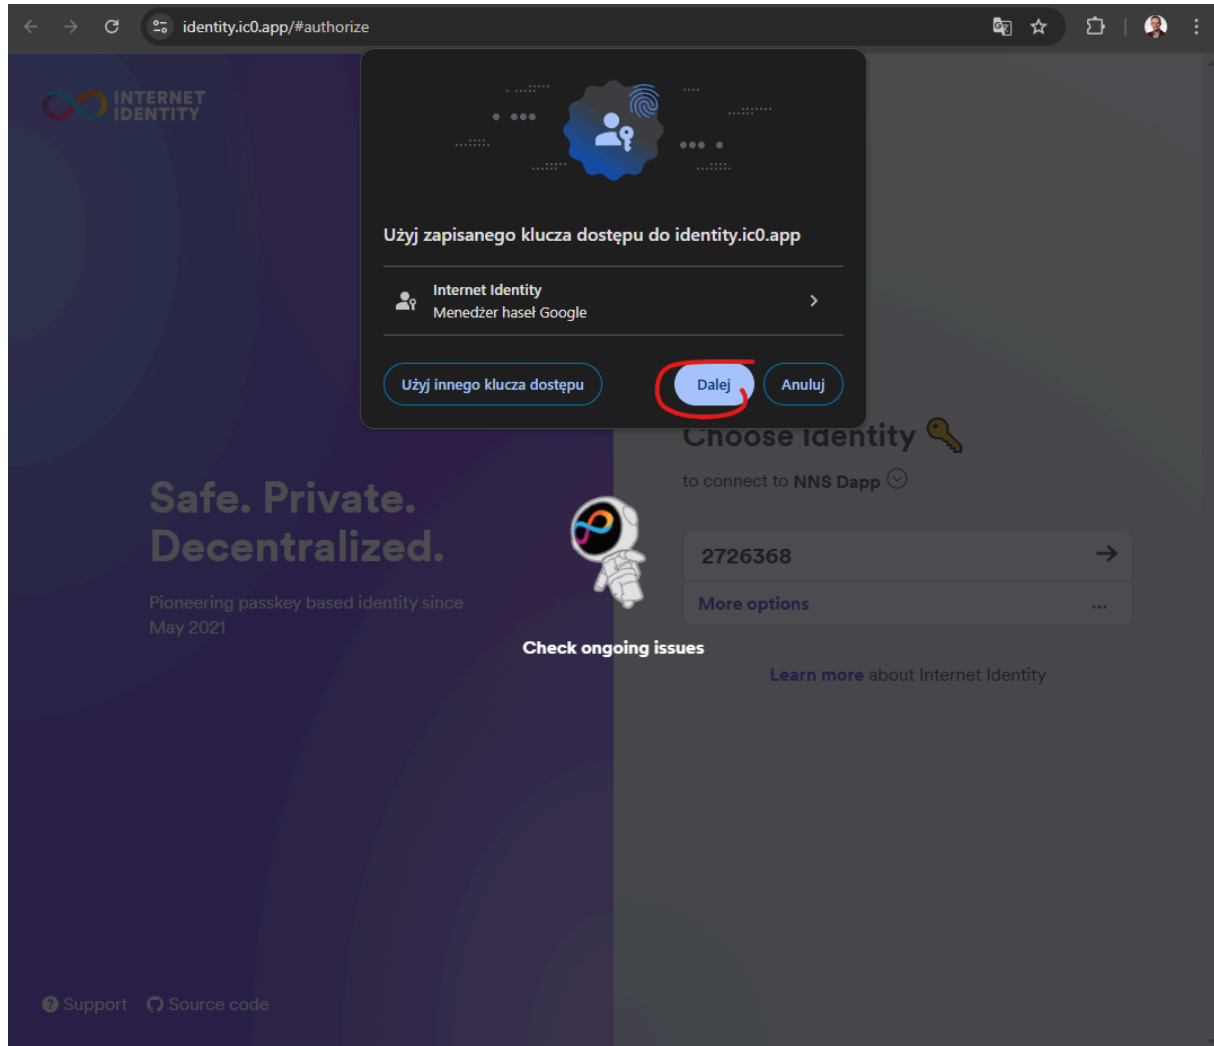

4.a. You should be redirected to this website that keeps your internet identity id. Do everything as documentation on the website says. If you saved your number in secure plate click “ I saved it, continue”

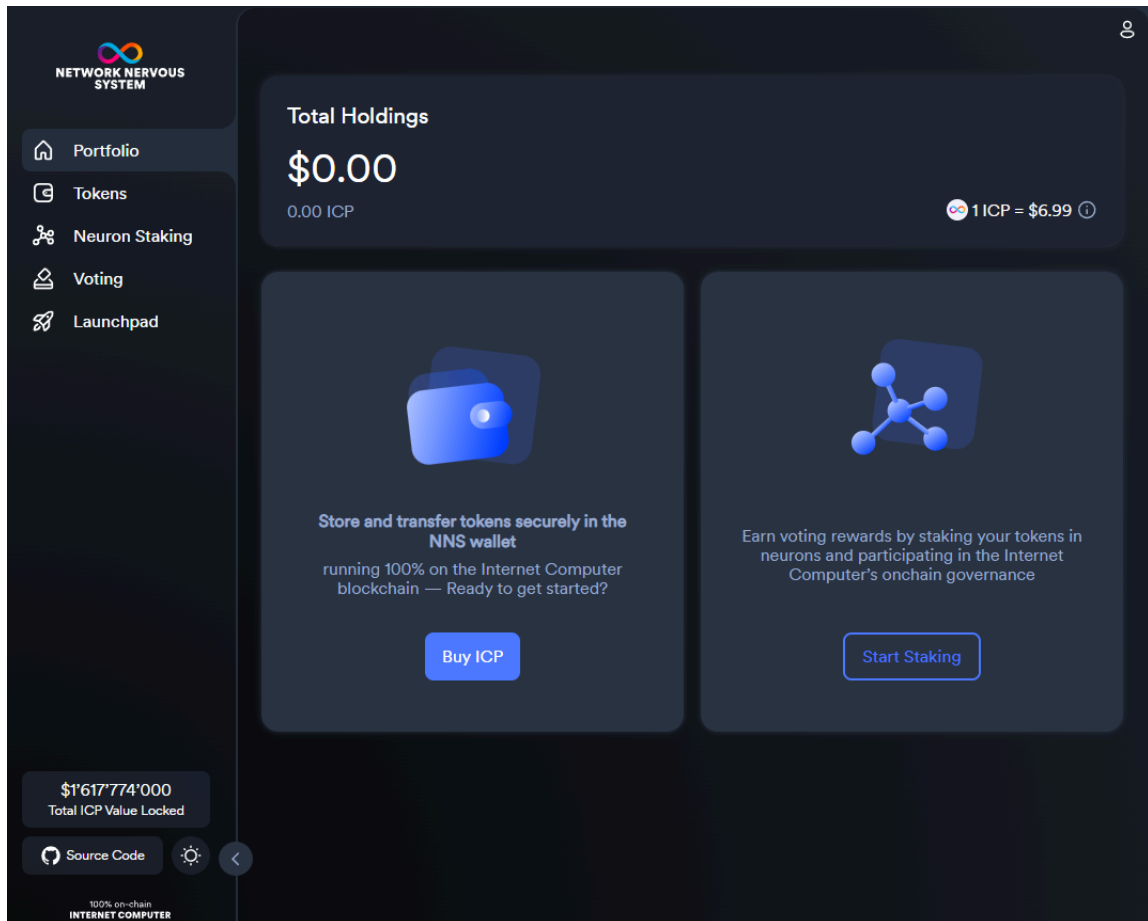

2.b. After a bow step you should be redirected to Internet Identity website (<https://identity.ic0.app/#authorize>). If you are on this website click on identity ID that you would like to use (If you do not have Internet Identity go to step 2.1)

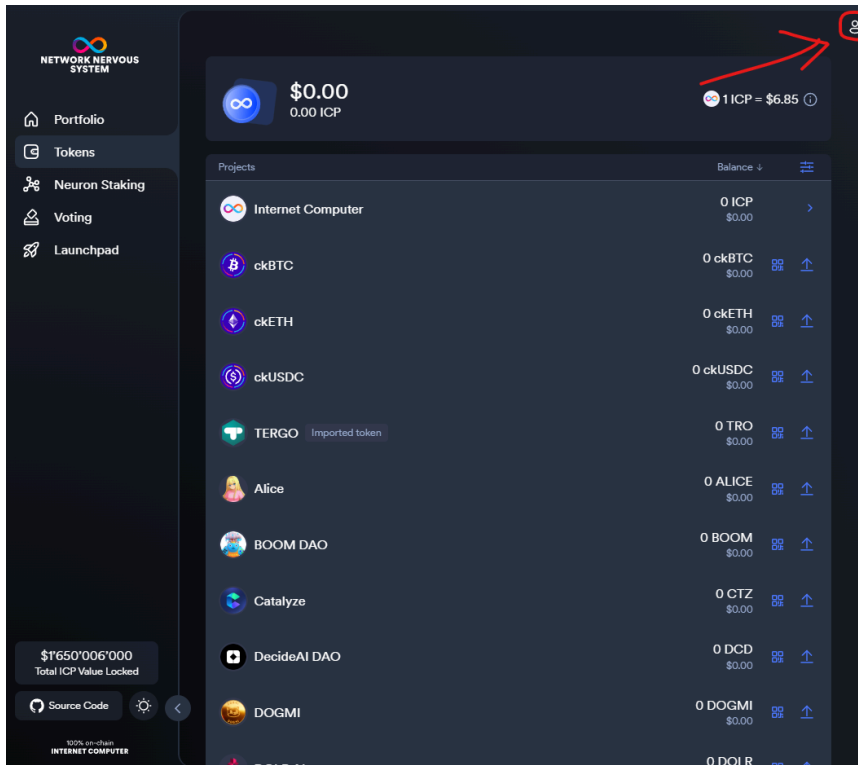

3.b. Continue logging in by decrypting your identity. Click "Continue" (Go to step 5)

5. After that you should be logged in to your wallet

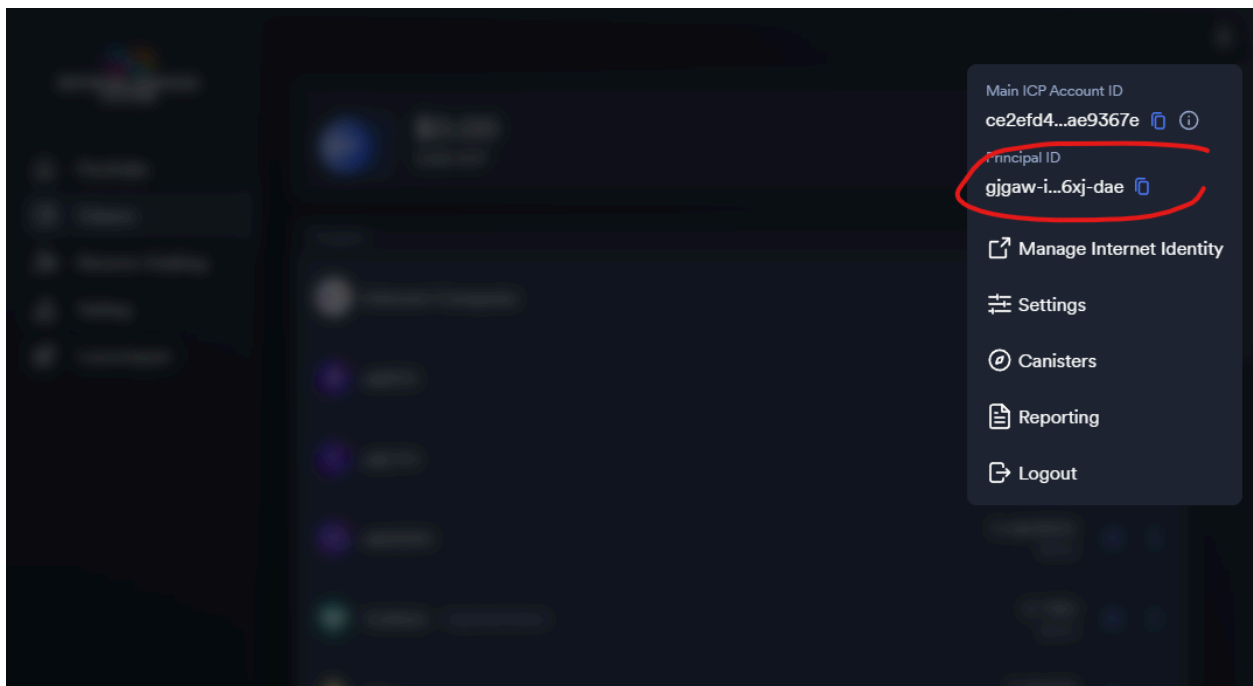

6. To copy your address you have to click on your profile icon

7. After that you should see a popout where you may click to copy your Principal ID (address)

You may send this address to anyone that would like to send you a token.

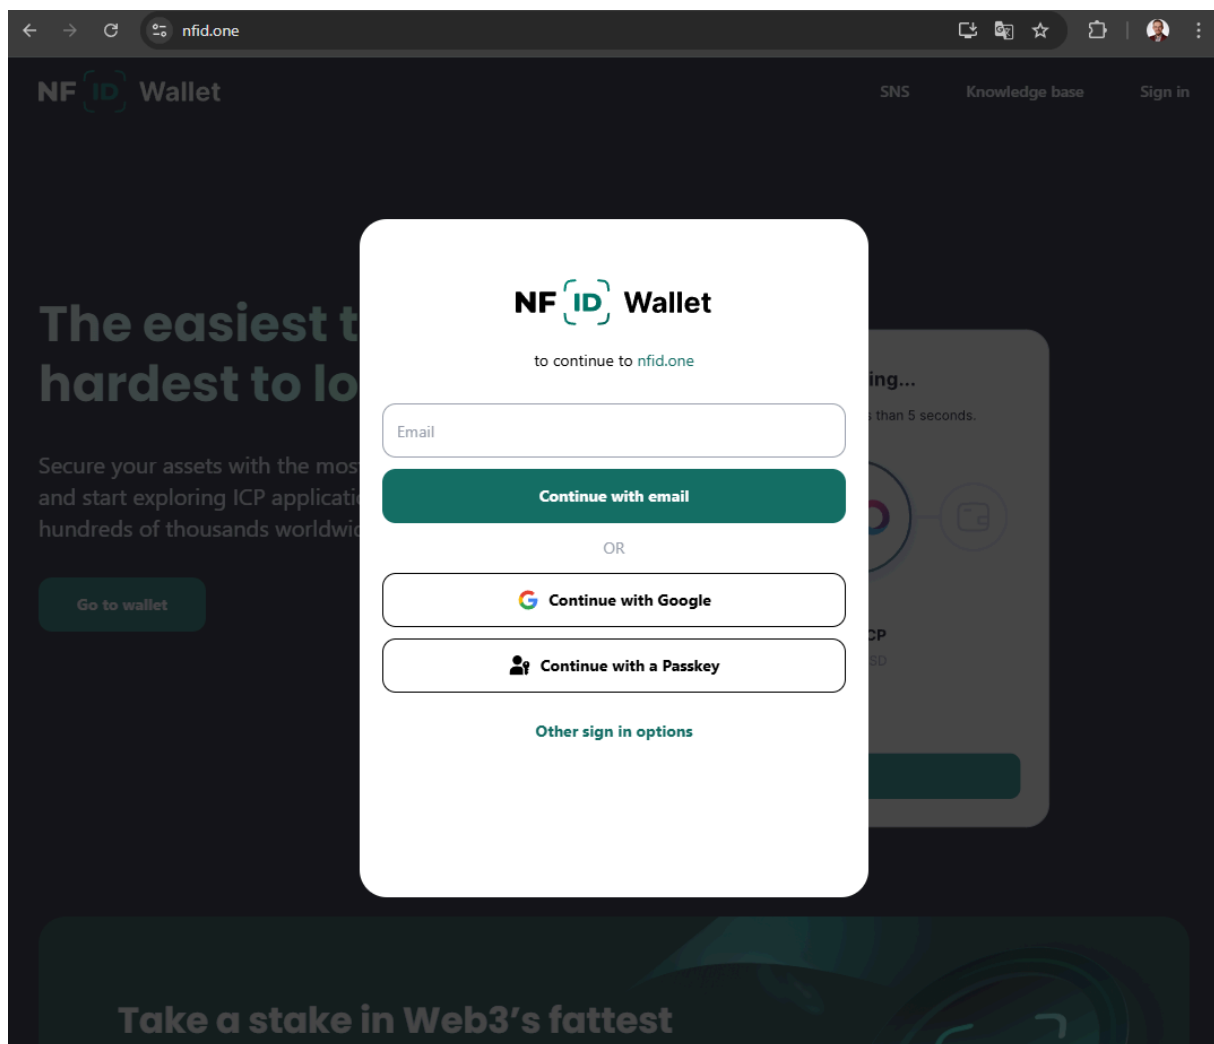

## NFID

1. Go to <https://nfid.one/> and click the button one from corresponding buttons:

- Continue with email
- Continue with Google
- Continue with a Passkey

Choose one from the options and follow the instructions.

2. After you will be logged in you will be redirected to the dashboard of your wallet where you will be able to click and copy your Principal ID (address).

You may send this address to anyone that would like to send you a token.

The screenshot shows the NF ID Wallet dashboard. At the top left is the logo 'NF ID Wallet' and a hamburger menu icon at the top right. The main content is divided into two panels: 'Portfolio' and 'Wallet address'. The 'Portfolio' panel shows a total balance of 0.00 USD with a change of +0.00 USD and a 0.00% increase over the last 24 hours. The 'Wallet address' panel displays the address 'Inrov...-vae', which is circled in red with an arrow pointing to it. Below the address are three buttons: 'Send', 'Receive', and 'Swap'. A link 'Show my Account ID' is also present. Below these panels are three tabs: 'Tokens', 'NFTs', and 'Activity'. The 'Tokens' tab is active, showing a table with columns for Name, Category, Price, Token balance, and USD balance. The table lists two tokens: ICP (Internet Computer) and TRO (TERGO).

Name	Category	Price	Token balance	USD balance ↓↑	
ICP Internet Computer	Native	6.72 USD ↑ 0.89%	0 ICP	0.00 USD	...
TRO TERGO	Community	Not listed	0 TRO	Not listed	...
